

## ***MIC-001 – Electret microphone for ADC-001***

The MIC-001 is an electret microphone assembly designed for use with the ADC-001 audio experimenter's platform. The microphone is fully shielded to eliminate pickup of EMI, is connectorized, and is ready for use with an ADC-001.

### **Specifications**

- Frequency range: 50 – 15kHz.
- Sensitivity: -46 +/- 3dB.
- SNR: 55dB
- Microphone: PUI Audio model POM-2246L-C33-LW100-R
- Cable length: 36”.

**Designed and Manufactured in the USA by Electroniscript, inc.**

PO Box 406  
Arlington, MA 02476
